

RMAMTE Annual Working Meeting
Summary of Discussion
Saturday, April 26, 2008 at the Rocky Mountain Section Meeting of the Mathematical
Association of American in Spearfish, SD

Prepared by: Michelle Chamberlin

Members present: Ben Saylor, Mary Sloan, Scott Chamberlin, Lynne Ipinia, Rob Powers, Randall Longcore, Michelle Chamberlin

Topics of Discussion:

- We decided to collect dues for membership of \$5 a year per person. We need funds to pay the annual dues to AMTE and to possibly do the following: bring in speakers; offer travel support for officers, students, teachers, and/or graduate students; and purchase a banner.
- We will continue having meetings at CCTM, the Rocky Mountain Section meeting of the MAA, and COLOMATYC. Each year the business meeting will be held at one of these three conferences with the best RMAMTE attendance.
- We asked people at the meeting what RMAMTE can do for them. Suggestions included:
 - Providing information about what AMTE is doing
 - Link from AMTE webpage to RMAMTE webpage
 - Listserve through which members can communicate with each other – sort of like CoMath in Colorado.
 - Snapshot summaries of what various members are doing professionally; such summaries would inform us of what we are doing and provide contact names for assistance with similar projects
 - Links on RMAMTE webpage to graduate programs at our various institutions
